Instructions

THE PLANE

- Flip the paper over so that the printed fold lines are facing down.
- Fold the corners in to the centre. Repeat for the next set of folds.
- Fold the nose back towards you, as shown.
- Fold in half along the centre line so the pictures and are on the outside.
- Finally fold down each wing and fold up the corner flaps.
- The plane will fly like this, but if you want to add some finesse to it follow the instructions below.

THE ADJUSTABLE FLAPS

- Cut on sides.
- Fold up to make the plane rise...fold down to make the plane drop.

Note: When printing on printers that require a large bottom margin, the adjustable flaps may not print.

THE STICK-UP TAIL

- Push the tip of the yellow-green triangle and push the back up through the middle
- Crease along the top and the diagonal lines.

THE FASTENING CLIP

- Cut on the sides.
- Fold to one side to hold the plane together.
